VIJAY KUMAR

Senior Laravel Developer | Healthcare & E-Commerce Platforms | Multi-Tenant SaaS · API Architecture

Mohali, Punjab, India | vc892782@gmail.com | +91 70183 06672 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full-Stack Laravel Developer with close to 5 years of experience, with deep specialization in healthcare operations platforms and luxury e-commerce/retail systems, including hands-on ownership of user data management, patient/clinical records, and high-value payment flows. Proven ability to architect scalable multi-tenant SaaS platforms, RESTful APIs, and PCI-DSS-compliant payment integrations (RapNet, IDEX, Stripe, Razorpay) — with additional delivery experience extending into real estate, travel, and grocery-SaaS domains. Translates complex business requirements into clean, production-grade code.

CORE TECHNICAL SKILLS

- **Languages & Backend:** PHP 8.x, Laravel 10/11, Node.js, CodeIgniter, Eloquent ORM, RESTful API Design, MVC Architecture
- **Frontend:** Vue.js 3, Livewire, JavaScript (ES6+), React, HTML5, CSS3
- **Database & Caching:** MySQL (query optimization & indexing), Redis, Laravel Horizon, Multi-Tenant Architecture
- **Architecture & Access Control:** Multi-Tenant SaaS Design, Modular/Package-Based Architecture, RBAC, Spatie Permission & Actions
- **Payments & Integrations:** Stripe, Razorpay, PCI-DSS Compliance, RapNet, IDEX, Unolo, OpenAI API
- **Testing & Quality:** TDD, Pest (PHP), PHPUnit, Custom Package Development, Code Review
- **DevOps & Tools:** Git, GitHub, Bitbucket, CI/CD Pipelines, Docker (basic), Composer, NPM, Vite, Laravel Herd, Cursor IDE

PROFESSIONAL EXPERIENCE

Software Engineer — Laravel Backend
Nov 2025 – May 2026

Collationhub Pvt Ltd | Mohali, Punjab

- Architected a real-time diamond search and pricing engine integrating live RapNet and IDEX APIs, managing 10,000+ certified stones with dynamic pricing across 5 international luxury storefronts and achieving sub-second inventory updates.
- Designed and built a multi-tenant Laravel platform on a single shared codebase powering Forevery, Grand Diamonds, and the JewelExperts ecosystem (Ros Juweliers, Astrid Diamonds, Marcus Gold, Darya Diamonds), cutting deployment overhead by ~40% and enabling brand-specific theming with shared inventory logic.
- Engineered a 'Design Your Own Ring' configurator backed by a complex relational schema for metal types, settings, and diamond pairings, significantly reducing custom-order processing time.
- Integrated PCI-DSS-compliant payment gateways with automated invoicing for high-value luxury transactions, maintaining zero payment-related security incidents since launch.
- Built real-time data synchronization across multi-region deployments, ensuring consistent, accurate inventory across all live storefront listings.

Full-Stack Developer
Oct 2024 – Nov 2025

Atulaya Healthcare | Mohali, Punjab

- Rebuilt internal clinical operations dashboards using Laravel and Vue.js, achieving 99.9% uptime post full-system redesign and eliminating prior platform instability.
- Owned end-to-end user and patient data management across clinical workflows — designing RESTful APIs for patient records, clinical activities, and diagnostic reports, enabling seamless data flow between LIS, RIS, and PACS systems.
- Integrated the Unolo API for real-time GPS-based field-staff tracking and automated daily reporting, cutting manual reporting effort by ~60% across 50+ field staff.
- Built automated data-delivery pipelines for clinical operations, improving report turnaround times and reducing manual intervention.

PHP Developer
Dec 2022 – Sep 2024

Star Reify Tech Solutions | Baddi, Himachal Pradesh

- Delivered a unified Payments Dashboard for AFIK Group (real estate), consolidating installments, maintenance fees, utility billing, and reservation transfers across multiple properties into a single management interface.

- Built a multi-vendor grocery e-commerce SaaS platform from scratch (Laravel + React) with RBAC and integrated payment processing, covering the full product lifecycle from vendor onboarding to order fulfillment and customer data handling.
- Developed RESTful APIs in Node.js for the Bookmetica CRM travel platform, handling payments, cancellations, and booking-status workflows integrated with 3 third-party travel APIs.
- Optimized MySQL queries and implemented caching strategies on a high-traffic e-commerce platform, improving page-load speed and contributing to a 25% uplift in conversion rate.
- Implemented a role-based access control (RBAC) admin dashboard using CodeIgniter, reducing unauthorized access incidents to zero.

Junior PHP Developer — Jul 2021 – Oct 2022

Zasya Solution | India

- Developed responsive PHP web applications for multiple business clients, working across the full stack with HTML, CSS, JavaScript, Bootstrap, jQuery, and MySQL.
- Implemented authentication and CRUD modules for client-facing web applications, building a foundation in backend feature development.
- Resolved production issues and collaborated with cross-functional teams to deliver client requirements on schedule.

NOTABLE PROJECTS

Forevery (forevery.one)

Flagship luxury jewelry e-commerce platform unifying diamond sourcing and retail. Delivered real-time diamond inventory via RapNet/IDEX integration, a bespoke ring-builder, and a PCI-compliant checkout supporting high-volume international transactions and customer data handling.

JewelExperts Multi-Tenant Ecosystem

Single modular Laravel codebase enabling 4 luxury jewelry brands (Ros Juweliers, Astrid Diamonds, Marcus Gold, Darya Diamonds) to launch independently branded storefronts on shared inventory and infrastructure, cutting per-brand deployment effort by ~40%.

Atulaya Healthcare — Clinical Data Platform

Rebuilt patient and clinical data workflows connecting LIS, RIS, and PACS systems, restoring platform stability to 99.9% uptime while safeguarding sensitive patient data across integrated services.

AFIK Group — Payments Portal

Full-stack payments backend built for a real estate group to replace fragmented manual billing — unifying installments, maintenance billing, utility payments, and reservation transfers into a single management dashboard.

DOMAIN EXPERTISE

Primary: Healthcare (clinical data & patient systems) · Luxury Jewelry & Retail E-Commerce (user data, payments, inventory)

Additional: Real Estate · Travel & CRM · Grocery/Retail SaaS · Multi-Tenant SaaS · Inventory Management

EDUCATION & CERTIFICATION

Bachelor of Technology, Computer Science — 2018 – 2021
Bahra University

Diploma in Computer Science — 2014 – 2016
Government Polytechnic Sundernagar, HP

Certification: PHP Certification
