VIJAY KUMAR

Senior Laravel / Full-Stack Developer

PHP 8 · Laravel 10/11 · Vue.js · MySQL · REST APIs · Payment & Third-Party API Integrations

Mohali, Punjab, India | +91 70183 06672 | vc892782@gmail.com | linkedin.com/in/vijay-kumar-9676bb1a1

PROFESSIONAL SUMMARY

Full-stack developer with 5+ years of PHP experience (since 2021), including 3+ years building production Laravel applications for e-commerce, healthcare, real estate and travel businesses. Most recently built one modular Laravel codebase that runs six separately branded jewelry storefronts selling from a shared inventory of 10,000+ diamonds. Strong in REST API design, payment-gateway and supplier-API integrations (Stripe, Razorpay, RapNet, IDEX), MySQL performance and Vue.js front ends. Based in Mohali; open to remote, hybrid and Tricity roles; available to join immediately.

TECHNICAL SKILLS

Backend: PHP 8, Laravel 10/11, CodeIgniter, Eloquent ORM, REST API design, MVC, OOP, Queues & Jobs (Laravel Horizon), Role-Based Access Control (Spatie Permission)

Laravel Ecosystem: Filament, Livewire, Laravel Nova

Frontend: Vue.js 3, JavaScript (ES6+), jQuery, AJAX, HTML5, CSS3, Bootstrap; React (project experience)

Database & Performance: MySQL (schema design, query optimization, indexing), Redis caching

Integrations & Payments: Stripe, Razorpay, RapNet API, IDEX API, Unolo API, OpenAI API

Testing & Tools: PHPUnit, Pest, Git, GitHub, GitLab, Bitbucket, Composer, Vite, Jira, Cursor (AI-assisted development)

Deployment & Other: AWS (S3, EC2), Docker, Ploi; WordPress & WooCommerce (custom plugins); Node.js (REST APIs)

PROFESSIONAL EXPERIENCE

Software Engineer — **Nov 2025 – May 2026**

Collationhub Pvt Ltd | Mohali, Punjab

- Built and maintained one modular Laravel codebase deployed as six separately branded jewelry websites (including Forevery), with brand-specific theming on top of shared inventory and business logic.
- Developed a diamond search and pricing engine integrating the RapNet and IDEX supplier APIs, keeping a catalog of 10,000+ certified stones in sync with dynamic pricing across all storefronts.
- Designed the relational schema and Laravel logic behind a “Design Your Own Ring” configurator covering metal types, settings and diamond pairings.
- Integrated Stripe and Razorpay checkout with automated invoicing for high-value orders, following PCI-DSS requirements.
- Implemented data synchronization across multi-region deployments to keep inventory consistent across all live storefronts.

Full-Stack Developer — **Oct 2024 – Nov 2025**

Atulaya Healthcare | Mohali, Punjab

- Rebuilt internal clinical operations dashboards in Laravel and Vue.js as part of a full system redesign that resolved recurring platform instability.
- Designed REST APIs for patient records, clinical activities and diagnostic reports, enabling data flow between LIS, RIS and PACS systems.
- Integrated the Unolo API for GPS-based tracking and automated daily reports covering 50+ field staff, replacing manual reporting.
- Built automated data-delivery pipelines for clinical operations, cutting report turnaround to 1 day.

PHP Developer — **Dec 2022 – Sep 2024**

Star Reify Tech Solutions | Baddi, Himachal Pradesh

- Built a multi-vendor grocery e-commerce platform from scratch with Laravel and React, covering vendor onboarding, role-based access control, payment processing and order fulfillment.
- Delivered a payments dashboard for AFIK Group (real estate) consolidating installments, maintenance fees, utility billing and reservation transfers across multiple properties.
- Developed Node.js REST APIs for the Bookmetica travel CRM, handling payments, cancellations and booking status across three third-party travel APIs.
- Optimized MySQL queries and added caching on a high-traffic e-commerce site, reducing page-load time from 4s to 1.5s.
- Built a role-based admin dashboard in CodeIgniter and custom WordPress plugins for client e-commerce sites.

Junior PHP Developer — **Jul 2021 – Oct 2022**

Zasya Solution | Shimla, Himachal Pradesh

- Developed responsive PHP/MySQL web applications for multiple business clients, including authentication and CRUD modules, using JavaScript, jQuery and Bootstrap.

- Resolved production issues and worked with cross-functional teams to deliver client requirements on schedule.

SELECTED PROJECTS

Shared-Codebase Jewelry Storefronts | *Laravel, MySQL, RapNet/IDEX APIs, Stripe, Razorpay*
Six jewelry brands needed separately branded websites selling from shared diamond inventory. Built one modular Laravel codebase deployed per brand, with brand-specific theming, live supplier inventory, a ring configurator and online checkout. Live example: forevery.one

Clinical Data Platform – Atulaya Healthcare | *Laravel, Vue.js, REST APIs, Unolo API*
Internal clinical dashboards were unstable and data was split across systems. Rebuilt the dashboards and the APIs connecting patient records and diagnostic reports across LIS, RIS and PACS, and added GPS-based field-staff reporting.

Real-Estate Payments Portal – AFIK Group | *PHP, MySQL*
Billing was handled through separate manual processes. Built a single dashboard covering installments, maintenance fees, utility billing and reservation transfers across multiple properties.

EDUCATION

B.Tech, Computer Science — Bahra University 2018 – 2021
Diploma in Computer Science — Government Polytechnic Sundernagar, Himachal Pradesh 2014 – 2016
